Limitless Computing Launches Field, Presentation, and Marketing Mobile AR Apps for SketchUp
Making an Impact at the AIA Expo

BOULDER, CO - June 19, 2013 - [Limitless Computing Inc.](#)[®], a leading provider of 3D mobile Augmented Reality, today announced that it will feature its latest mobile Augmented Reality products for Android and Apple devices in booth 4210 at the [AIA \(American Institute of Architects\) Expo](#) in Denver, June 20-22.

Limitless Computings' suite of Augmented Reality (AR) products for Trimble SketchUp pre-visualizes buildings, materials, fixtures, and more, using a mobile device to enable professionals to effectively communicate scale and context. Save time and money, plus close deals faster by bringing designs to life in a real-world context.

See the impact as designs come alive in real environments with SightSpace[®] 3D, Pro, and View:

- [SightSpace 3D for Apple and Android](#): SightSpace 3D with AR virtually explores digital spaces created in Trimble SketchUp, the Trimble 3D Warehouse, and Google Earth. It is the only mobile app that loads SketchUp files (8+) in the native .SKP format. Quickly and easily display buildings, products, designs and more. Annotate, bookmark views, take screenshots, and share notes and photos. In English, Spanish, French, and Chinese. Apple version available; Android version coming soon. \$39.99
- **SightSpace PRO for Apple**: SightSpace PRO unlocks the advanced power of SightSpace 3D. Features and capabilities include connecting an external GPS for accurate AR, location markers for AR that are ideal for indoor use, photo markup and annotation, animated bookmarks, dimensions, and more. Apple version available; Android version coming soon. \$39.99/month; \$199/6 months; \$399/12 months.
- **SightSpace View Plugin and Mobile App**: SightSpace View plugin can connect to any Trimble SketchUp digital model with a QR code for the ultimate mobile AR experience. When scanned with the free View mobile app, users experience the 3D design overlaid onto the real-world using the live camera feed of the device. Apple version available; Android version coming soon. View service starts at \$39.99/month with a free mobile app viewer.

About Limitless Computing

Boulder, CO-based [Limitless Computing Inc.](http://www.LimitlessComputing.com) has provided [cloud computing](#) since 2006, specializing in Augmented Reality. Limitless Computing brought Augmented Reality to Trimble SketchUp in 2011 with the release of the mobile application SightSpace 3D for Apple and added Kindle Fire and Android devices in 2012.
