**Limitless Computing Announces SketchUp 2014 Support for SightSpace Mobile Augmented Reality**  
*Continued Commitment to the SketchUp Community*

BOULDER, CO - March 11, 2014 - [Limitless Computing Inc.](#)<sup>®</sup>, a leading provider of 3D mobile Augmented Reality, today announced that as part of its ongoing commitment to the SketchUp community, its SightSpace<sup>®</sup> Mobile Augmented Reality products now support SketchUp 2014.

Limitless Computings' suite of Augmented Reality (AR) products for Trimble SketchUp pre-visualizes buildings, materials, fixtures, and more, using a mobile device to enable professionals to effectively communicate scale and context, saving time and money, and closing deals faster by bringing designs to life in a real-world context.

All of Limitless Computings' SightSpace products now support SketchUp 2014:

- [SightSpace 3D for Apple and Android](#): SightSpace 3D with AR virtually explores digital spaces created in Trimble SketchUp, the Trimble 3D Warehouse, and Google Earth. It is the only mobile app that loads SketchUp files (8+) in the native .SKP format. Quickly and easily display buildings, products, designs and more. Annotate, bookmark views, take screenshots, and share notes and photos. In English, Spanish, French, and Chinese. Apple and Android versions available; \$39.99
- [SightSpace PRO](#): SightSpace PRO unlocks the advanced power of SightSpace 3D. Features and capabilities include connecting an external GPS for accurate AR, location markers for AR that are ideal for indoor use, photo markup and annotation, animated bookmarks, dimensions, and more. Apple and Android versions available. \$39.99/month; \$199/6 months; \$399/12 months, \$499. lifetime. 14-day free trial available
- [SightSpace View Plugin and Mobile App](#): SightSpace View plugin can connect to any Trimble SketchUp digital model with a QR code for the ultimate mobile AR experience. When scanned with the free View mobile app, users experience the 3D design overlaid onto the real-world using the live camera feed of the device. View service starts at \$39.99/month with a free mobile app viewer.

**About Limitless Computing**

Boulder, CO-based [Limitless Computing Inc.](http://www.LimitlessComputing.com) has provided [cloud computing](#) since 2006, specializing in Augmented Reality. Limitless Computing brought Augmented Reality to Trimble SketchUp in 2011 with the release of the mobile application SightSpace 3D for Apple and added Kindle Fire and Android devices in 2012.
